**MATERIA MEDICA LIVE**  
 50 remedies on video  
 - Milano/Italy -

**ROBERTO PETRUCCI**[www.robtopetrucci.com](http://www.robtopetrucci.com)**PROGRAM**

Dr. Petrucci is a very dynamic teacher; he uses cases from his clinical practice to go deep in the understanding of the homeopathic remedies. In this course he will draw a picture of 50 homeopathic remedies and the student will have a real "live materia medica".

During the comments of the cases, he will give important informations about the case-taking; he will explain how to translate the language of the patient in the "homeopathic language"; he will teach the case analysis in the most classical way or applying new methods, themes and concepts, families of remedies and the use of the periodic table.

During the follow up, he will show how to manage a case, explaining the use of different potencies and how to repeat the remedy. His knowledge of the repertory is extraordinary and his method of case analysis and management will be a stimulating experience, even for advanced practitioners.

This course is open to all nationalities but is taught in English.

This homeopathic course is open to all levels of homeopathic students but is of a very high standard and quality of information.

It is advised, therefore, that you have some experience before attending this homeopathic course.
